

Chief, Intelligence Information Staff, ORR
THRU : Chief, Industrial Division, ORR
Acting Chief, Electrical Equipment Branch, ORR

4 June 1957

Request for Requirements, ORR 11550, A-10-985-418

This office requests the following information be obtained from the above-referenced source:

1. All information available on the production, by types and quantities, of radio-relay communications systems, and on related equipment and component parts.
2. All information on the production of automatic and manually-operated telephone systems and component parts, for military and non-military use.
3. Information on the above should include description of products, application, quantities produced, distribution of products, costs, etc.
4. In general, if any piece of equipment or component part produced at Belciannis Plant has a communications application, the information desired would be its application, quantities produced, description and function, costs, distribution, and future production plans.
